EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 4, line 16, the term --, **23'**-- was inserted after "**23**" at the end of the line to add a description to the specification of reference numeral **23'** shown in Figure 2.

On page 4, line 20, the term --, **25'**-- was inserted after "**25**" to add a description to the specification of reference numeral **25'** shown in Figure 2.

IN THE CLAIMS:

In claim 1, line 1, the term "the" was deleted and replaced with --a-- to correct an obvious informality since no top cover has been previously recited in the claim.

In claim 11, line 10, the term "bass" was deleted and replaced with --base-- to correct an obvious typographical error.

IN THE DRAWINGS:

2. Several minor informalities are present in the drawings and should be corrected. The following changes to the drawings will correct the informalities and are approved by the examiner: In Figure 2, reference numeral 53 and its associated lead line will be added near the top of the page to illustrate the mounting holes 53 described on page 6, line 10 of the specification. Additionally, an illustration of the spring leaf described in claim 15 will be added to the drawings (or, alternatively this feature can be canceled from the claims).

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a barcode printer having a top cover including a printing module including all of the structure as recited, in combination with and particularly including, an output unit adapted to print a barcode on a sheet member, the output unit having a higher first mounting face and a lower second mounting face with a connector, and a bottom panel, a locating plate, and a holder frame for securing the printing module to the inside of the top cover of the barcode printer as specifically recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on M-Th 7:30 am-6:00 pm.
